

## CEWE Production Facility

📍 Eschbach, Germany

photocredit:  

## Facts

**Production Facility |**  
**Retrofit in existing building**

SDAX & Nisax20 listed leading  
multinational photo development &  
printing company.

**Lighting upgrade in existing production  
& printing facility.**

**2.275 sqm**

**12 smartengines**

**1 smartdirector**

**564 sensors**

## Achievements

Improved production conditions, including better  
quality control lighting and environmental lighting,  
whilst reaching substantial cost reductions for lighting  
power.

## Highlights

Implementation of intelligent background lighting  
which flexibly illuminates areas adjacent to areas with  
occupancy providing even light levels and color  
quality throughout used areas instead of lighting the  
entire facility.

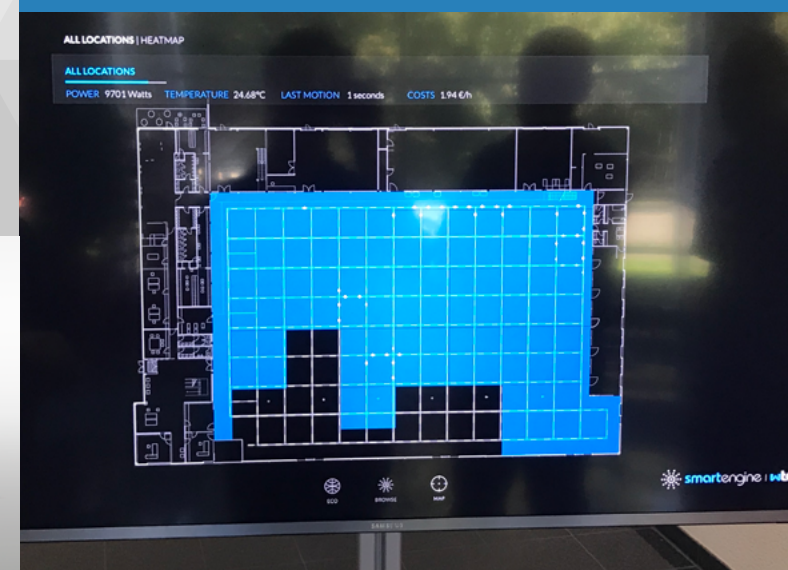

## Efficiency & Energy Savings

**3.8 kW | 2,275 sqm**

**252.0 MWh – yearly**

**128.5 tons less CO<sup>2</sup>-emission – yearly**
